

K-LOVE is an important part of the local community, and would be sorely missed if the station would be replaced by a LPFM station. It is an essential part of my commute time to and from work, and provides both inspirational and refreshing music and news updates for both local and national news and events.

I believe there are many other stations available for secular, news, and downbeat music and to replace the main station that can give upbeat and joyful music and news with another negative would be a disservice to the community.
